CLIENT TESTIMONIALS

“

This team was such an amazing find. I have been looking for a team to help me with projects that are above my skill level for website development and they hit the mark. I plan to use them each and every time I have a project. Take a chance, use them.

Rob Jensen
Provo, United States

“

Excellent to work with! I would recommend highly. They are very knowledgeable, easy to communicate with and work hard to find a resolution.

Estefano d'Elano
Hesse, Germany

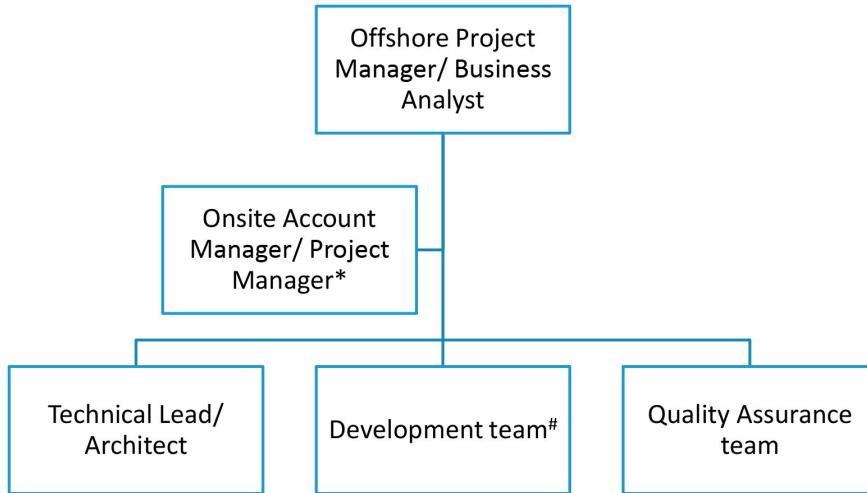

“

The professionals at Deaninfotech have been instrumental in providing high quality professional web design and development. They will not disappoint you!

Christine
Victoria, Australia

”

OUR PROJECTS

LACOSTE

Lacoste is one of the world's most recognizable brands. We have created a wonderful Landing Page Website for Lacoste for its 12.12 collection. The website allow customers to buy the Lacoste watches online. The website is highly dynamic and easy to update from backend panel.

The screenshot shows the homepage of the CREDAI website. At the top, there's a navigation bar with links for Property Management, Member Project, Home, Search, and social media icons. Below the header, there are stats: 11,940 Members, 23 State Chapters, and 204 City Chapters. It features a photo of the President and Vice-President. The main content area includes sections for CREDAI CSR, CREDAI LEADERSHIP MOVEMENT, CREDAI EDUCATIONAL SCHOLARSHIP FUND, CREDAI LEARNING PROGRAMME, and CREDAI EXPRESS Newsletter. There are also sections for Preferred Partners like Anchor, Cera, decunick, dorset, and CREDAI WOMEN WING.

Credai is one of the biggest non-profit real estate organization in India. We have redeveloped their website from scratch with creative look & feel to give better user-experience to the website visitors. This website provides up-to-date information regarding upcoming events and policies in real estate world. We have also built the membership area where members can post their real estate projects and website visitors can search and access those projects free of cost. Key Attribute:- Mobile & Tablet Responsive, Custom Content Management System, Members Management System.

TRANSCAPITAL BANK

TransCapital is a bank chain based at Florida, USA. We have designed a brand-new website to give information to their customers about the current deposit rates, branches, account types, foreclosure information and to apply a loan online. We have also integrated their online banking system within their website. Key Attribute:- Speed Optimized, Search Engine Friendly, Content Management System

B&G OILFIELD SERVICES

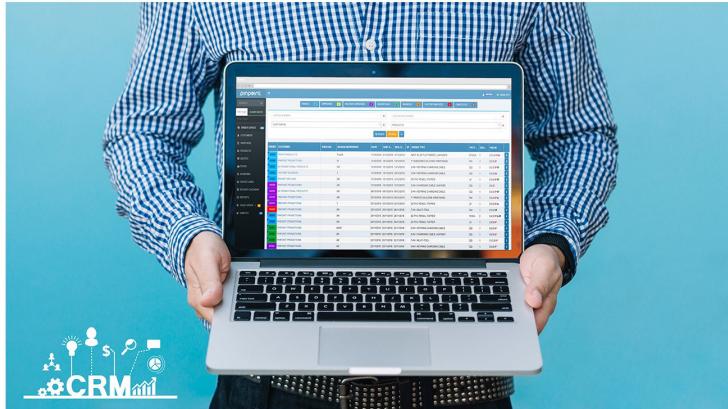

B&G oilfield services is a very popular name in oil and gas industry in North America. We redesigned their website on a robust platform to show their services, portfolio and the work which they have done since 1966. This website is built on custom WordPress theme and has a vast 7-step career application form with several custom logic built behind this form. Beautiful engaging design is the USP of this website. Key attributes:- Social media integration, Google map integration and Gravity Forms

ETS is the house gates designing company based in UK. We have built a visualizing tool where their customers can upload the front image of their house and then try ETS gates by simply using drag & drop feature. Customer can see gates in different color and sizes. They can also save the images and send enquiry to ETS for designing a similar gate for their houses.

Pinpoint is Brand Specialists Since 1980 in UK and they are dealing in badges, golf, keyrings, power rage and lots more. We have created a CRM to manage their products, customers, suppliers, orders, quotes and analyze data using custom reports. This application is helping them to create a strong relationship with their customers and suppliers.

ONDOOR

An online supermarket where customers can buy - Grocery, vegetables, fruits, household items, personal care products and anything needed in a household on day-to-day basis. We have built a dashboard through which customers can view their past orders, track the deliveries, save billing address and view offers. There is also a web panel for shop owner to manage customers, orders, products and reports.

HERO APP

Hero Corporate is one of the leading corporation in motocorp, steel, real estate and insurance industries. We have built an app for their insurance business where their existing and new customers can view their policies. This app allows customers to buy and renew the policies online. App is also sending the reminders notifications about the policies.

DEPOLITE APP

We have built this app for **Belgium Police**. This app won the CPL award for the most innovative means of communication of the year 2017. Each police zone can use the app to improve communication between the police and the population. Through this app, citizens can call the emergency services with 1 click. Other main features are Quick Dialer, GPS tracking, information about Local Police Stations, Neighborhood Agent, SMS and Local News

HOTEL DEALS

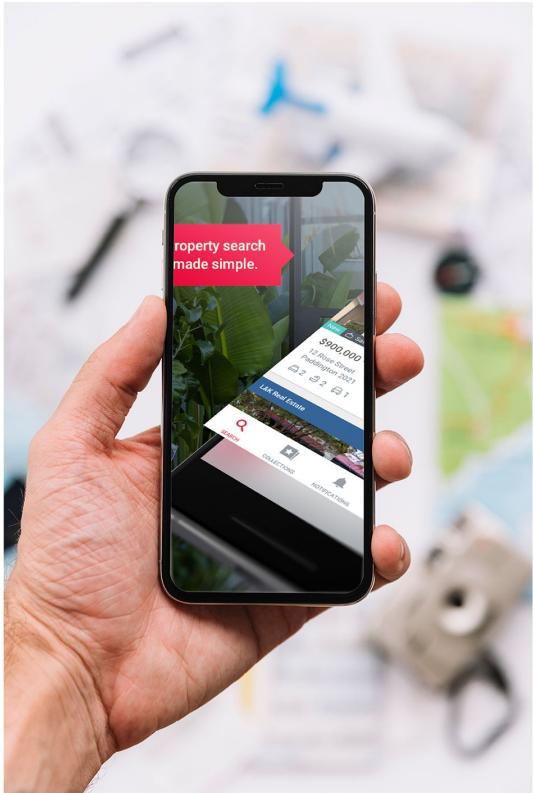

The screenshots demonstrate the app's user interface. The top one shows the search function with specific dates and guest details. The bottom one shows the search results for Orlando, with a clear view of the available properties and their details.

It is an online hotel booking app in cheap prices. This app allows customers to select best hotel for their trips after looking into hotel's rooms images, facilities and reviews & rating. On the other hand, hotel owners can manage their portfolio, bookings and availability. Online payment feature is also a part of this app.

REALESTATE AUSTRALIA

Real estate app to sell & buy properties online. This app has a search engine to find a property within australia. Users can save their searches and send enquiries to property owner. Property owners has a dashboard to manage their properties and buyer enquiries.
